

WESTERN MANUFACTURING

ANNUAL INDEX 1963

A limited number of tearsheets are available for most articles. For your free copies write to WESTERN MANUFACTURING, 609 Mission St., San Francisco, Calif., and indicate month and page number as listed below.

COMMUNICATIONS

Fast look at test data	Dec.	40
Gas powered midget carries 800 lb payload	June	59
Microfilm goes Western	Nov.	30

DESIGN

Blind riveting process serves Western needs	Jan.	24
Light and color: new dimensions in industrial plant design	Dec.	32
Precision parts by investment casting	July	23
Tool steel increases part life	Feb.	41

MAINTENANCE

"Airbrasive" tool cuts cleaning time	Oct.	51
Clean room clothing	Jan.	26
Cooler design increases heat recovery	Feb.	30
Downtime cut from 6 weeks to 1 day (metallizing)	Oct.	52
Dust control in a Western plant	May	29
Electric motors problems in food processing	Sept.	37
Electricity, equipment and maintenance	May	42
Fiberglass fabric replaces plywood liner	Dec.	47
Flexible couplings cut tile factory costs	Sept.	48
The flexible plant, a new Western type	Mar.	46
Hard-surfacing cuts cost 65%	Sept.	50
The importance of maintenance on eddy-current drives	Sept.	41
Keeping house in one of the West's cleanest	June	42
Lubrication and lubricating equipment	Aug.	46
Lubrication study reduces cost	Feb.	34
Machinable carbide saw guides	Nov.	47
Magnetic conveyor stops can damage	Mar.	57
One gallon of paint covers 13 more drums	May	46
Pump care	Oct.	33
P-V farmed out (preventative maintenance)	Dec.	37
Roof condition eliminated by plastic	Feb.	42
Scrap handling idea saves \$38,000 annually	Feb.	40
Space age lighting problem	June	48
Special equipment for longer maintenance-free service (power transmission)	Apr.	40
Spent acid handling cost reduced 69%	May	35
Spray technique solves Western roofing problem	Jan.	30
Steam cleaning	Aug.	25
35 of the best manuals on paints protective coating and cleaning compounds	June	63
Under-floor conveyor for handling waste	Nov.	26

MANAGEMENT

Computer purchasing saves \$100,000 annually	Feb.	28
The Functional technique	Dec.	26
Interruptable service saves \$50,000	Nov.	28
Material handling special report	Apr.	25
Metals and metalworking special report	Mar.	23
Training program increases quality level 10%	Mar.	52
Ultrasonic sound protects Western plant	Jan.	32
West's economic outlook for 1963	Jan.	28

MATERIAL HANDLING

Adjustable dock board cuts unloading time	June	58
Conveyorize to economize	Oct.	30
Conveyor system provides for expansion	Feb.	25
Engineering a material handling system	June	54
Fast unload gives 40% production increase	July	30
Fork lift cuts loading time 80%	Sept.	52
Heavy plywood floors now being researched	Nov.	48
Jet-age salt	Oct.	43
Lift truck reduces handling time 50%	Aug.	36
Magnetic conveyor stops can damage	Mar.	57
Material handling special report	Apr.	25
New vacuum lift proves cost saver	Dec.	31
Pallet racks for entire warehouse erected in only one and one-half days using new pipe locking device	July	38
Plastic tote boxes improve quality control	Feb.	42
Pump care	Oct.	33
Quick highway trailer loading, It's fast	Nov.	44
Rayon strapping eliminates damage	Oct.	48
Rotating crane aids fill products depot	Oct.	37
Scrap handling idea saves \$38,000 annually	Feb.	40
Single lift truck slashes handling-storage problems	Jan.	33
Storage technique (plastic tote boxes)	May	32
Under-floor conveyor for handling waste	Nov.	26
Versatility with 30% more storage. (Narrow aisle fork lift trucks)	Oct.	38
Western plant integrates manufacturing, saves money	Jan.	21

METAL WORKING

Atomic radiation gages metal thickness	Jan.	34
Automation with a press brake	Jan.	33
Blind riveting process serves Western needs	Jan.	24
Carbide wedge saves 31% on tooling costs	Oct.	47
Clad plate by explosive bonding	Dec.	44
Costs cut 50 to 70% with plastic	Nov.	47
Custom built machine combines steps, cuts cost	May	47
Disc grinding triples production	Dec.	39
Downtime cut from 6 weeks to 1 day (metallizing)	Oct.	52
Easy-to-machine stainless lowers manufacturing costs	May	39
Grinding production up 57%	May	27
Hardness only skin deep? You need a clean quench	Oct.	32
Hard-surfacing cuts cost 65%	Sept.	50
High speed band saw	Dec.	25
Hot ideas on cold treating	Aug.	23
How to hold it a minute (clamping)	Nov.	37
Improved aluminum castings increase production	Feb.	41
Labor time reduced by resistance welding	Sept.	49
Machinable carbide saw guides	Nov.	47
Machine tools, special manuals	July	46
Metals and metalworking special report	Mar.	23
More freight for freightliner (welding)	Aug.	28
N/C tool center saves time	Dec.	30
7000 Dice per hour	Dec.	44
Parts finished by the barrel	Aug.	31
Precision parts by investment casting	July	23
PRODAC, Wide flange beams from punch cards	July	32
Shop production jumps 37% (carbide insert)	July	38
Stamping press cuts production time one-half	Apr.	46
Studs the easy way (welding)	Aug.	30

Stud welding aids aerospace quality control	Mar. 57
Titanium welding method	May 47
Tool design speeds production, stops waste	Mar. 43
Tool steel increases part life	Feb. 41
Tracer attachment slashes turret lathe machining time	Apr. 37
Volume drilling while retaining flexibility	Feb. 37
Western metal congress and exposition	Apr. 44
Western metal congress and exposition	Mar. 33

NEWS FEATURES

Electricity equipment and maintenance	May 42
Heavy plywood floors now being researched	Nov. 48
New methods in printed circuitry	July 26
West's economic outlook for 1963	Jan. 28
Western metal congress and exposition	Mar. 33
Western metal congress and exposition	Apr. 44

PACKAGING

Ball point adhesive applicator	Aug. 34
Good packaging increases market potential	June 57
Heavyweight squeeze improves strapping	June 59
New packaging protects against 2% damage loss	Aug. 33
Packaging cleaned up with staples	July 37
Packaging efficiency increased 500%	Apr. 42
Pressure sensitive labels save time and money	Jan. 34
Rayon strapping eliminates damage	Oct. 48
Steel strapping machine boosts production 100%	July 38
Strapping machine helps reduce preparation time	Mar. 58

PLANT ENGINEERING

Adjustable dock board cuts unloading time	June 58
Air preheater of a unique design	Nov. 48
A basic distribution system well designed for expansion	June 44
Building profit with wood	Sept. 45
Conveyor system provides for expansion	Feb. 25
Engineering a material handling system	June 54
The flexible plant, a new Western type	Mar. 46
Heating, ventilating, air conditioning	June 51
Interruptable service saves \$50,000	Nov. 28
Keeping house in one of the West's cleanest	June 42
Light and color: new dimensions in industrial plant design	Dec. 32
Pallet racks for entire warehouse erected in only one and one-half days using new pipe locking device	July 38
Push-me Pull-you pumps	Nov. 42
Roof condition eliminated by plastic	Feb. 42
Rotating crane aids mill products depot	Oct. 37
Space age lighting problem	June 48
Spray technique solves Western roofing problem	Jan. 30
35 of the best manuals on paints, protective coatings and cleaning compounds	June 68
Versatility with 30% more storage, (narrow aisle fork lift trucks)	Oct. 38
Why not standardize on clean room design	Oct. 27

POWER & POWER TRANSMISSION

A basic distribution system well designed for expansion	June 44
Cooler design increases heat recovery	Feb. 30
Electric motors problems in food processing	Sept. 37
Fail-safe inching device	Oct. 44
Flexible couplings cut tile factory costs	Sept. 48
The importance of maintenance on eddy-current drives	Sept. 41
A particle of truth about variable speed control	Sept. 32
Power and power transmission special manuals	Sept. 66
Push-me Pull-you pumps	Nov. 42
Single V-ribbed belt reduces lathe wear	Apr. 48
Special equipment for longer maintenance-free service	Apr. 40
V-Belt saves \$700	Sept. 35

PRODUCTION

"Airbrasive" tool cuts cleaning time	Oct. 51
Automatic screw driver-how to drive 15 tapping screws per minute	Sept. 49

Automation with a press brake	Jan. 33
Ball point adhesive applicator	Aug. 34
Conveyorize to economize	Oct. 30
Cooler design increases heat recovery	Feb. 30
Costs cut 50 to 70% with plastic	Nov. 47
Custom built machine combines steps, cuts cost	May 47
Easy-to-machine stainless lowers manufacturing costs	May 39
Fast unload gives 40% production increase	July 30
Flow plating	Dec. 47
The functional technique (valve engineering)	Dec. 26
Grinding production up 57%	May 27
High speed band saw	Dec. 25
How to hold it a minute (clamps)	Nov. 37
Improved aluminum castings increase production	Feb. 41
Labor time reduced by resistance welding	Sept. 49
Liquid sealants cuts costs 70%	Nov. 42
More freight for freightliner	Aug. 28
New methods in printed circuitry	July 26
One gallon of paint covers 13 more drums	May 46
A particle of truth about variable speed control	Sept. 32
Parts finished by the barrel	Aug. 31
Pelletizing disc cuts balling costs 50%	Mar. 58
Photo guide technique aids in wiring harness	Mar. 56
Plastic coating technique	May 46
Plastic increases table production	May 44
Pressure sensitive labels save time and money	Jan. 34
PRODAC, Wide flange beams from punch cards	July 32
Shop production jumps 37% (carbide insert)	July 38
Silicone sealant for food processing	Nov. 44
Special labeler aids in quality control	June 58
Stamping press cuts production time one-half	Apr. 46
Steel strapping machine boosts production 100%	July 38
Sticky solution (adhesive)	Dec. 40
Studs the easy way (stud welding)	Aug. 30
Tool design speeds production, stops waste	Mar. 43
Tracer attachment slashes turret lathe machining time	Apr. 37
Volume drilling while retaining flexibility	Feb. 37
Western plant integrates manufacturing, saves money	Jan. 21

QUALITY CONTROL

Atomic radiation gages metal thickness	Jan. 34
Automatic tester speeds diode output	Apr. 48
Black granite. Where does it come from?	Nov. 23
Clean room clothing	Jan. 26
Disc grinding triples production	Dec. 39
Hardness only skin deep? You need a clean quench	Oct. 32
Packaging efficiency increased 500%	Apr. 42
Plastic tote boxes improve quality control	Feb. 42
Special labeler aids in quality control	June 58
Stud welding aids aerospace quality control	Mar. 57
Titanium welding method	May 47
Training program increases quality level 10%	Mar. 52
Why not standardize on clean room design	Oct. 27

SAFETY

Boiler safety checklist	Dec. 48
Ultrasonic sound protects Western plant	Jan. 32

SPECIAL MANUALS

Abrasives	Feb. 58
Air pollution	May 57
Casters and wheels	Nov. 62
Coatings, paints, cleaners	June 68
Cranes, conveyors, hoists	Apr. 62
Lighting, air conditioning, heating	Oct. 64
Lubrication and lubricating equipment	Aug. 46
Machine tools	July 46
Metals and metallurgy	Mar. 68
Motors and controls	Dec. 59
Plant furniture	Jan. 42
Power and power transmission equipment	Sept. 66

The articles in this index have been listed under subject headings. For your convenience, where articles pertain to more than one subject, find them listed appropriately.
